/@KUTZBACH\ is 60% certain that WIDOWSY wasn't aware of this case, so he's going to let it continue! (Mensch, mensch, mensch.) SCHOEEL was recently asked to check on a "175er" in Hamburg who frequently phones Prague or is in contact with the CSR. UPHILL suspects that the man is active with the CTS, but doesn't see anything to be gained by investigating the case farther. They plan to turn the results of their investigation over to the SG (omitting the results of info learned by SCHOEEL).

Wolfgang KLOSE has recently come to UPHILL's attention as a legal representative for an East German spitzel who was arrested in West Berlin. If he is a Pflichtverteidiger, this will not be startling but if he's volunteered for the job it should be most interesting. It still appears that UPHILL is running around after nothing here unless they are able to recruit KLOSE. Since WIDOWSY probably (in my opinion) knows about this case, UPHILL would do well to get out now.
